The contract will also be liable for cancellation at the discretion of the District Forest Officer on account of default.

(c) The Koti preparation work will be commenced at 8 A.M. and continued till 6 P.M. every day with an interval of an hour or two from 12 NOON.

S. O. 50.

(*d*) The available tools in the Koti shall be spared for work and in case the number of coolies is more than that of tools available, the contractor should himself provide the extra tools required. The tools spared from the Government should be returned intact, as otherwise, the cost thereof will be deducted from out of the contractor's dues or from his security deposit amount.

(*e*) That the contractor should be present at the Sandal Koti at all times the preparation is going on and he shall be solely responsible for all acts and omissions by his coolies

(*f*) That the Koti preparation will be done in strict conformity with the assortment rules and as per directions of the officer in charge of the Koti. (*k*) Axes should not be used for the preparation of Sandalwood.

(*l*) The billets to be prepared should be 2½ feet in length.

(*m*) The security furnished will be returned to the contractor three months after the expiry of the contract period if the whole or any portion of it is not forfeited to Government by the violation of the terms of the contract.

(*n*) Payments will be made by cheques once in every month on the bills compiled by the Range Officer concerned. Rules regarding the elimination of pies and annas will be observed as per standing orders.

N.B.—As a rule, higher rates are payable for the superior classes of prepared wood and less for Milva-chilta. Hence, two different rates should be quoted in the tender, one for the out-turn of superior classes and the other for Milva-chilta, since the object aimed at is that greater care should be taken by the contractor to see that the Koti preparation work is conducted on principles of economy so as not to waste heartwood by conversion into chips. No charges are payable on the Milva-chilta if the out-turn of the same is 15 per cent and more in proportion to the total production of good-wood.

MISCELLANEOUS DEPARTMENTS

GOVERNMENT OF MYSORE—ELECTRICAL DEPARTMENT.

OFFICE OF THE CHIEF ELECTRICAL ENGINEER IN MYSORE, BANGALORE.

Notification dated 5th June 1941.

DEFECTS IN POWER AND LIGHTING INSTALLATIONS.

Several instances have come to the notice of this Department wherein the defects in consumer's installations have caused higher than normal consumptions and the consumers applying for remissions of the charges thereof with the reason that the heavy consumption was due to grounding, etc. The attention of the public using Electric Power is therefore, invited to the Press Note No. 1425-1484—P. O., dated 12th February 1937 (which is reproduced herewith) in which it is clearly laid down that the consumers should have their installations tested annually by the Licensed Electric Contractors and the results of their tests recorded then and there on the meter cards of the Consumers. They should also enclose the Certificates issued by the Licensed Electrical Contractors, to their applications to the Superintendent, Power and Lighting, for refund on account of grounding. Otherwise, no remission can be allowed in the absence of such record on the meter cards and the receipt of the required contractor's certificates earlier to dates of grounding. Particular attention of the public is also invited to the last para of the above Press Note to avoid injury to human life, damage to property and excess consumptions due to defects in the installations of the Consumers.

OFFICE OF THE PUBLICITY OFFICER TO THE GOVERNMENT OF MYSORE. BANGALORE.

Press Note No. 1425-1484—P.O., dated 12th February 1937.

DETECTIVE LIGHTING AND POWER INSTALLATIONS.

The following note received from the Chief Electrical Engineer to the Government of Mysore is published for general information and guidance :—

"Defects in electric lighting and power installations have recently become of common occurrence and the attention of the consumers is invited to Rule 99 of the Wiring Rules of the Electrical Department which requires periodical inspections and testing of electric installations by competent Electrical Contractors and Inspectors. For the information of the consumers Rule 99 is quoted *in extenso* as follows :—

INSPECTION.

Rule 99.—The value of systematically inspecting and testing fuses, apparatus and circuits cannot be too strongly urged. Records should be kept of all tests, so that any gradual deterioration of the system may be detected. Cleanliness of all parts and fittings is essential.

"Defects in consumer's installations generally cause excessive consumptions and frequently cause interruptions not only to the consumer whose installation is defective but to many other consumers supplied from the same circuits and feeders and sometimes cause serious accidents to human beings and occasionally start fires in the buildings.

"The excessive consumptions caused by these defective installations are due to no fault of the Electrical Department and therefore no rebates will be allowed on this account in the future, that is, the consumers will have to pay for the energy consumed as recorded by the meters when the meters are found to be correct.

"Consumers should arrange to have their installations tested annually by competent Licensed Electrical Contractors and all defects rectified at once, otherwise the service thereto will be disconnected. Electric Lighting and Power Installations should be taken care of by their owners to the same extent as their other property is cared for and to make expert assistance readily available. Government instituted many years ago the system of licensing Electrical Contractors who have organized themselves into an Institution known as "The Licensed Electrical Contractors' Association." The members of this Association are fully qualified to test Lighting and Power Installations and to repair any defects.

"Consumers are requested to obtain a certificate from the Licensed Electrical Contractor whom they may engage for testing and putting in good order their installations. The Licensed Electrical Contractors' Association is notified that their members, after testing an installation, should give the owner a written certificate and that they should record on the consumers' meter card, that the installation is in safe condition. The certificate will be a prime requisite when considering whether or not a rebate will be allowed in cases of excessive consumptions caused by defects in installations.

"It is emphasised that consumers will be responsible for injury to human life, damage to property and for excess consumption caused by defects in their installation which could have been located and remedied by Licensed Electrical Contractors and Electrical Inspectors."

Publicity Officer to Government.

Notification dated 6th June 1941.

It is hereby notified that sealed tenders will be received by the undersigned up to 2 P.M. on Monday the 30th June 1941, for transporting articles such as implements, seeds and manures and miscellaneous articles to Babbur Farm and other Agricultural depots in the District from Chitaldrug Railway Station and the Agricultural Depot, Chitaldrug, during 1941-42.

Tenders should be addressed to the Assistant Director of Agriculture, Chitaldrug Circle, Chitaldrug, in a sealed cover and superscribed as "Tender for Carting Contract." The name of the tenderer should also be superscribed on the top of the cover.

Each tender must be accompanied by a deposit of Rs. 50 in currency notes. Earnest money of the successful tenderer will be retained as security deposit for due fulfilment of the contract.

The tenders will be opened in the presence of the tenderers who wish to be present on 30th June 1941 at Chitaldrug. The final acceptance of the tender will rest with the Director of Agriculture, Bangalore, who does not bind himself to accept the lowest or any tender or to assign any reason whatever for the rejection of any.

The deposits received from unsuccessful tenderers will be returned to them at their cost.

The specific rate should be given for each item in the schedule accompanying the tender. The rates quoted must be per mile for a cart-load containing a minimum of 40 Mds.

Articles which are intended to Babbur Farm must be delivered on the Farm itself and not at the Hiriyur Depot even though the consignments may be less than a cart-load. If, however, consignments meant for the Farm are delivered at Hiriyur Depot, cart-hire, if any, paid by the Farm will be deducted from such consignments.

No amount will be paid to the contractor till he produces the voucher in the proper form. He should be prepared to meet the railway freight on consignments which are to be booked and on consignments which are received at Chitaldrug from various institutions payment of which will only be made on production of railway generel receipts and other receipts. If however, the railway freight to be met is above Rs. 25, arrangements will be made to advance the amount required and he should produce the vouchers immediately after taking delivery and booking the consignments.

The contractor should go over to office every day and enquire whether there are any consignments to be booked or any railway receipts for taking delivery of consignments. Immediately after taking delivery of consignments he should arrange to take them to the intended places without the least possible delay and he will be responsible for any loss, shortage, etc., during the transit.

On consignments which are received in small bags weighing below 40 maunds and which are less than a cart-load, cart-hire will be paid according to the discretion of the Agricultural Inspector, Chitaldrug, not exceeding the mileage rates quoted by him and his decision will be final.

While calculating cart-hire on consignments which are more than 40 maunds, cart-hire will be paid for the exact quantity carted by rule of proportion. No payment will be made for articles below one maund.

The contractor should promptly take the railway receipts in time and see that no demurrage charges are incurred. If any demurrage charges have to be paid owing to delay in taking the railway receipts from the office or delay in taking delivery of article at the Railway Station, such charges will be recovered from the contractor.

If consignments are not taken delivery of in time and transmitted in time to the intended places, the same will be transhipped by the Department and excess charges and losses, if any, will be recovered by him.

The successful tenderer should execute a bond on a stamped paper to the Agricultural Inspector, Chitaldrug, binding himself for the above conditions and which may be prescribed by the Department, for the prompt work and good behaviour and that if he fails to carry out Government work satisfactorily his deposit amount will be forfeited to Government.

Charges for items which do not fall under the schedule will be paid at the discretion of the Agricultural Inspector, Chitaldrug, in each individual case and his decision will be final.

Any violation of the above conditions will entail the forfeiture of his deposit.

This contract will automatically terminate on the 30th June 1942.

5. The earnest deposit money in the case of all unsuccessful tenderers will be duly returned to them in person or at their cost, if by post.

Conditions.

(*a*) That the contractor shall be ever ready during the period of contract to employ as many number of coolies who know how to work at sandal so as to turn out the allotted quantity every week, fortnight or month, as may be assigned.

(*b*) That in case the contractor fails to employ the number of coolies required so as to turn out the allotted quantity of prepared wood at any time, the officer in-charge of the Koti shall make his own arrangements for the preparation of the wood by employing coolies, making the contractor liable to pay up the cost, even though it may happen to be extra. The contract will also be liable for cancellation at the discretion of the District Forest Officer on account of default.

(*c*) The Koti preparation work will be commenced at 8 A.M. and continued till 6 P.M. every day with an interval of an hour or two from 12 NOON.

N.B.—As a rule, higher rates are payable for the superior classes of prepared wood and less for Milva-chilta. Hence, two different rates should be quoted in the tender, one for the outturn of

superior classes and the other for Milva-chilta, since the object aimed at is that greater care should be taken by the contractor to see that the Koti preparation work is conducted on principles of economy so as not to waste heartwood by conversion into chips.
